

CAREERS

As we move into the middle of Term One there is a lot happening in the area of Careers. Year 10 has settled into their regular time for all things relating to Careers each Wednesday period 2 of Week B. Each student should now have a plastic sleeve folder containing any information that is covered during this time. So far we have covered getting a job, resumes and some important Board of Studies information. I encourage parents to talk to their daughters about what is covered and become informed as much as possible about their futures.

Just a reminder that students wishing to obtain a tax file number need to apply online at ato.gov.au and then attend an interview at their local post office. The process is quite simple and best undertaken in advance of students getting part time jobs.

Charles Sturt University runs great introduction to university days called MyDays throughout semester one each year. These are especially designed for Year 12's thinking about studying at CSU and give prospective university scholars the opportunity to be a university student for a day. Mrs Auhl has information pamphlets if interested.

This Thursday 3rd March Year 12 will be attending the University Roadshow presented by representatives from Charles Sturt University, University of New England and Southern Cross University. This information morning will take place during periods 1 and 2 in the School Hall and gives our students an excellent overview of information for embarking on studying at university in the future from accommodation, fees, finance and employment to name a few.

The college receives a great deal of Careers information that students can access in the Careers Office near the main school staffroom. At the moment I have a number of spare left over 2016 UAC Guides that give an excellent broad overview of the University Admission Scheme and the tertiary institutions that are part of this scheme. There is a lot of information about the HSC, ATARs and much more. If any parents would like a copy to start getting your heads around what can be a quite overwhelming stage of parenting please get your daughter to come and collect one from me. Best wishes for the coming year.
