

Dear Friends in Christ,

As the major work of restoring our Cathedral continues, I repeat my thanks to everyone supporting it with their work, their donations and their prayer.

The major work is concerned with repairing the stone and brickwork and ensuring that the foundations and drainage are taken care of in a way that avoids future problems. However, this is also an opportunity to look for improvements to the interior of the Cathedral and its surroundings.

I encourage you to take part in consultation that the Cathedral Restoration Committee is launching this weekend.

May God bless the work.

+ Michael McKenna
Bishop of Bathurst
