

LOVEBITES 2016

During Thursday and Friday on Week 8 our Year 10 students participated in the Love Bites program which is a Violence Prevention Program aimed at raising awareness and reducing the incidence of Domestic and Sexual violence. This program has been coordinated and presented by our fabulous college counsellors Lisa Lantry and Tracy Allen. We greatly appreciate the time given by these two experienced and knowledgeable ladies to implement this vital program.

The girls participated in three workshops throughout the program: sexual assault, domestic and family violence and a creative session in the afternoon to raise awareness of the issues discussed in the program.
