

# Student Wellbeing News

## Junior Council Update

The Junior Council met last week and discussed a number of initiatives for Term 4:

**Sun-Smart Initiative:** The Junior Council discussed the issues of sun safety and what we could do to improve the awareness of students. There will be **sunscreen stations** placed in the playground for students to apply sunscreen at recess and lunch. They also looked at school hats including the possibility of a sports cap and a more formal school hat.

**Feel-good Fridays:** Last term students participated in RUOK? Day where students had a picnic lunch on the oval with music streaming. The College felt that this was an extremely positive experience and would like to provide more opportunities for students to engage with each other. Subsequently “feel-good Fridays” will be taking place this term, including music provided by the junior council at recess and lunch. There will also be two picnic lunches with live music thanks to Mr Hughes and his talented musicians.

## WELLBEING SURVEY

**Bullying:** The graphs below compare our results to that of a state wide survey held in 2016\*.

\* Wellbeing and engagement of young people in South Australia 2016

Although the results are extremely positive, we are always working in partnership with students and parents to resolve situations where a relationship between students becomes difficult or out of balance.

Have a wonderful week,

Mr Nick Dawes
